Zephyr V2

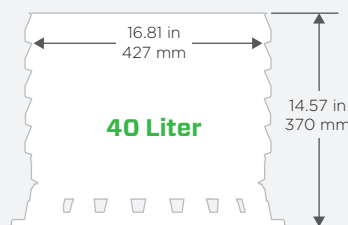

What make us unique

<p>Tallest legs in the world</p> <p>7 cm tall legs prevent root contact with soil and pathogens.</p>	<p>Stable base with large surface area</p> <p>Wide base is more than 5x as stable than any other pot with legs.</p>	<p>Strong connection</p> <p>Gear slots specially designed for greater base and wall support.</p>	<p>Small gap</p> <p>Narrow draining area, about 3mm wide, substrate won't go through.</p>	<p>Easy assembly</p> <p>Use air gun for faster assembly.</p>
